

EXPOSITION INTERNATIONALE D'ÉLECTRICITÉ

SOUS LE PATRONAGE DE L'ÉTAT  
PARIS 1881

COMMISSARIAT GÉNÉRAL

Palais des Champs-Élysées

PORTE N° IV

Les bureaux sont ouverts  
tous les jours non fériés  
de 10 heures à 5 heures.

Le Commissaire Général  
reçoit les Lundi,  
Mercredi et Vendredi,  
de 3 heures à 5 heures

Paris, le 1<sup>er</sup> feb. 1881

My dear sir

I have just received your favor of Jan. 17<sup>th</sup>, and Mr. Berger, the general Commissioner of the exhibition has at once sent a telegram to Mr. Edison to ask him full particulars on the installation of his electric railway and of his large dynamo with the 800 burners.

As soon as I shall get the reply, I will take arrangements for preparing space.

The name of Edison is so well known on the continent now, that I am quite sure that every body shall be very anxious to see his exhibition.

I remain Yours most sincerely

Antoine Miegus

I have seen a picture of the large dynamo in the Scientific American, but

if you can send me a better and  
more scientific description, I shall  
~~feel~~ greatly obliged to you.
